

# **2024 Equismartz Hippology Contest**

## **Impromptu Team Problem**

### **Senior 4-H and FFA**

*You will have 3 minutes to prepare and no more than 7 minutes to present. You will be deducted points for exceeding the time limit. You will be judged on your ability to informally discuss the problem as a team in a thorough and accurate manner.*

You are a working student at a training barn, and get lessons in exchange for taking care of tack. Your barn manager has two pieces of tack she wants you to sell. To earn your next lesson, do the following:

1. “Mock” show and tell the judge how you would properly clean the saddle entirely. With the props provided, use correct terminology and demonstrate how this is done.
2. Pretend the judge wants to buy this tack from you. Describe both items to the buyer, including any important information about this tack and its purpose that a purchaser should know.
