## 2012 Block and Bridle FFA Meats Judging Contest Meat Formulation Problem

50 points, 30 Minutes

## BE SURE TO USE A #2 PENCIL AND FILL IN CORRECT BUBBLES!

## USDA REGULATIONS FOR GROUND BEEF:

GROUND BEEF: The terms "Ground Beef" and "Chopped Beef" are synonymous. Products must be made with fresh and/or frozen beef with or without seasoning and without the addition of fat as such and shall contain no more than 30% fat. It may contain beef cheek not to exceed 25%. It may contain added water, binders or extenders. Heart and tongue meat are not acceptable as ingredients. The Technical Requirements Schedule (TRS) – GB 2007 requires potential contracts to designate, in their technical proposal, a laboratory to conduct microbiological testing of boneless beef.

Assume that you are a production supervisor at a large meat processing company. You have won the bid to make "Hokie Beef". The following are company policies that must be followed to make "Hokie Beef".

- 1. All fresh products must be stored at a temperature not exceeding 34°F.
- 2. No variety meat may be used.
- 3. No products over 4 days old may be used.
- 4. The finished product must be made of all beef.
- The least cost shall be determined and performed on acceptable ingredients to select the lowest cost combination of products which meet all ground beef guidelines.

You have received an order for "Hokie Beef" with the following order specifications;

- The desired fat content of the finished product is 14%
- The batch size is 3300 pounds
- It will be manufactured and processed on March 29, 2012.
