

2013 Meat Goat Skill-a-thon
SENIOR QUIZ

Name: _____

1. **Worms have developed some level of resistance to all of the available anthelmintics.**
A. **True** B. False
2. **Some coccidiostats are toxic to horses.**
A. **True** B. False
3. **Parasite resistance (lower fecal egg counts) is less heritable than reproductive (twinning) rate.**
A False B. True
4. **Which forage has anthelmintic properties (reduces internal parasite loads)?**
A. Alfalfa B. Crabgrass **C. Sericea Lespedeza** D. Orchardgrass
5. **What animal is the normal host for the meningeal worm?**
A. Rabbits B. rodents **C. white tailed deer** D. cats
6. **How often should goats be wormed?**
A. Only when they need it C. Monthly
B. Twice per year D. Every three months
7. **What is the preferred method to deworm goats?**
A. Injectable C. Pour on
B. Oral drench D. Squirt injectable in the mouth
8. **At what age are kids usually affected by floppy kid syndrome?**
A. Birth C. 1 month of age
B. 2 weeks of age D. **3 to 10 days of age**
9. **If two polled goats are bred, there is an increased chance that the offspring will be born with what genetic defect?**
A. Intersex(hermaphroditism) C. Cryptorchidism (undescended testicles)
B. Free martinism D. Umbilical hernia
10. **A digestive upset where large amounts of methane gas are trapped in the animal's digestive tract is known as _____?**
A. Bloat C. Enterotoxemia
B. Gastritis D. Ruminitis
11. **What is the Gestation Period of a pregnant doe?**
A. 145 – 155 days C. 3 weeks, 3 months, 3 days
B. 9 months D. Time between meals
12. **What is the commonly used name of the vaccination for overeating disease?**
A. CD&T C. Penicillin
B. 7-Way D. Valbazen
13. **Which chamber of the stomach is called the honeycomb?**
A. Rumen C. Omasum
B. **Reticulum** D. Abomasum

2013 Meat Goat Skill-a-thon
SENIOR QUIZ

Name: _____

14. Goats that browse have fewer problems with internal parasites.
A. True B. False
15. What is the intermediate host for meningeal worm?
A. Pasture mite
B. Cat
C. Earthworm
D. Snail or slug
16. If your goats have footrot (or scald), what should you soak their feet in?
A. Warm soapy water
B. Zinc sulfate solution
C. Ammonium chloride solution
D. Diatomaceous earth
17. Which disease affects the scrotum of a male?
A. epididymitis
B. urinary calculi
C. tetanus
D. pizzle rot
18. What is the normal body temperature of a goat?
A. 102-103 degrees
B. 98.6 degrees F
C. 98-99 degrees F
D. 110-112 degrees F
19. A FAMACHA card can be used to monitor infection levels of which internal parasite?
A. Coccidia
B. Nose bots
C. Barber Pole Worm
D. All Stomach Worms
20. Goats metabolize anthelmintic faster than sheep and usually require higher doses of the drugs.
A. True B. False
21. A goat with bottle jaw should only be dewormed if it has a poor FAMACHA score and high fecal egg count.
A. True B. False
22. Which anthelmintic has efficacy against tapeworms?
A. Prohibit (levamisol)
B. Valbazen (albendazole)
C. Ivomec (ivermectin)
D. Cydectin (moxidectin)
23. What are the USDA grades for goats?
A. Prime, Choice, Standard and Good
B. Select 1, 2, and 3
C. There are no USDA grades for Goats
D. Prime Choice good utility and cull
24. Which U.S. State raises the most goats?
A. Texas B. Florida C. Virginia D. Iowa
25. Which region of the United States processes the most goats under federal (USDA) inspection?
A. Texas B. West Coast C. Midwest D. Northeast
