

Contestant Number: _____

Name: _____

Keep/Cull Dorset Ewes

These Dorset ewe lambs will be retained as a replacements in a registered flock located in the Shenandoah Valley. The flock sells rams to commercial producers through the Virginia Ram Test as well as off the farm.

Additionally, the family shows their top end breeding stock at local and state shows (both in Junior and Open registered breeding sheep shows).

The bottom end of the lamb crop is sold as market lambs targeting the ethnic market. Identify the four best ewe lambs to keep for this scenario.

No.	Birth Date	Birth/Rear Type	Codon 171 Genotype	Adj. 60-day Weight Ratio	Adj. 120-day Weight Ratio
1	10/8/14	S/S	RR	108	110
2	10/10/14	Tr/Tr	QR	105	103
3	10/10/14	Tr/Tr	RR	104	105
4	10/12/14	S/S	QR	102	105
5	10/14/14	S/S	RR	95	101
6	10/15/14	Tw/Tw	RR	92	91
7	10/15/14	Tw/S	RR	101	95
8	10/25/14	Tw/Tw	RR	101	111

CIRCLE the numbers of the 4 ewe lambs that you would KEEP in the flock
