

Hay Judging Class

Rank these four hays as they should be fed to gestating heifers during late-gestation. It is the goal to meet heifer energy and protein requirements largely with forage. Additional supplementation to hay intake increases feed costs and decreases profitability of this cow/calf operation. The provided nutrient analysis is on a dry matter basis.

Hay	TDN, %	CP, %	NDF, %	ADF, %
1	59.3	14.1	64.5	34.6
2	56.3	10.3	67.1	36.7
3	53.9	7.8	73.2	38.3
4	58.9	13.4	63.3	33.2
