Guides farmers and ranchers through the process of developing a business plan and working with agricultural lenders

This college-level course is available nationwide in an on-demand, online training format for farmers to use from their home or place of business. Farm Credit University is making this program widely available to serve Farm Credit's mission to help prepare young, beginning, small and minority (YBSM) farmers and ranchers for a more successful and fulfilling business, family and personal life by improving their management and business planning skills.

Sign up for Ag Biz Planner

This course is on-demand, allowing you to enroll at any time.

Grant & Loan Programs

The Tobacco Region Revitalization Commission is committed to developing a diverse economy in Southern and Southwest Virginia. The Commission utilizes [7 grant funds](#) as well as a loan program to achieve this goal. For more information on how these programs fit into our overall mission please take a look at our Strategic Plan.

Eligible applicants include local governments, economic development organizations, and IRS-designated nonprofits (funds that will ultimately benefit a private entity must have a public purpose and flow through a public or nonprofit grantee, based upon terms of a performance-based agreement). Our document [Funding Policies for Grant Awards: Information for Applicants and Grantees](#) provides insight on how funds are awarded and administered.
