# **Generation NEXT Mini-workshops**

## Focusing on Families and their Woods

Are you concerned about passing your family land to your heirs? Do you know your options to pass on your family woodlands or farm? Do you know where to start?

## INtact - IN Forest - IN Family ownership

You value your forest and/or farmland for many reasons. Are you prepared to pass the environmental and heirloom values rooted in your forest to the next generation? Without breaking it up?

The cost of not planning is "priceless" and future tax burdens may put your land's ownership in jeopardy. If you don't plan, the state has a plan for you. By researching and choosing what you want ahead of time, you can ensure your wishes are met and minimize the cost of professional advisors! Please join us for a hands-on workshop with free legal guidance from professionals experienced in intergenerational land transfer and landowner testimonials of estate planning steps & strategies they have used.

Land may be your biggest asset. Make sure your actions support the family's values.

Speakers include experts experienced in estate planning as well as trusted natural resource professionals who work with landowners to plan the future.
